Precision Aesthetic Dentistry – 2 Week Course
Mon, August 14, 2017, 7am – Fri, August 25, 2017, 2pm
Newport Beach, California

The Precision Aesthetic Dentistry – 2 Week Course, offered through a partnership with International Academy of Aesthetics (IAA) and Gulf Dental Students & Young Dentists Association (GDSA), is comprehensive training course covering fundamental restorative techniques and clinical dentistry conducted by experienced dental educators. This inclusive course is intended for international dental professionals with minimal or no previous experience in precision aesthetic dentistry. This course is designed to train the dentist on the comprehensive approach of restorative techniques clinical

dentistry. Through our partnership with Duggan Institute of Dentistry, we are devoted to helping dentists and students beyond the typical educational facility. They have been a part of the community since 1992 and have trained with over 4,000 students, dentists, and board candidates. There are over 3,000 dentists practicing in California that achieved licensure through examination with their help.

Course Tuition Includes:

- Course attendance
- All materials and training supplies
- Didactic classroom time, lectures and practice
- Daily halal meals during lecture hours
- Instructional videos
- A certificate of training completion will be awarded at the conclusion of training
- International Academy of Aesthetics (IAA) Associate membership
